

# ZEN

The IoT ZEN package is the solution to facilitate the deployment of your IoT projects in Europe, while reducing your costs.

## What is included in the IoT ZEN offer:

NB-IoT / LTE-M sensor

Pre-configuration of network, server and application parameters

Prepaid SIM card

SIM card installed  
5-year subscription  
5Mb / month included

Device Management

Initial integration with the Live Object platform  
5-year subscription

### Quick and easy

Order your kit and receive your ready-to-use sensor in just a few days.

### Network quality

NB-IoT and LTE-M connectivity with PSM support in most European countries.

### Controlling operating costs

With a prepaid subscription, you control your budget and pay nothing for 5 years.

### From 1 to 1,000 sensors

There's no minimum order quantity, so try out our ZEN offer from the first sensor you buy.

### Low investment costs

We can guarantee the best prices for sensor connectivity and device management services thanks to our partnerships and negotiated contracts.

### Support

Benefit from the expertise of our specialist IoT team, who will support you and answer all your questions at every stage of your IoT project.

# ZEN OFFER

**PULSE**  
ARF8420AA

**DRY CONTACTS**  
ARF8420ABA

**COMFORT**  
ARF8394AA

**C. SERENITY**  
ARF8394AB

## PARAMETERISED SENSOR

NB-IoT / LTE-M sensors:

PULSE - DRY CONTACTS - COMFORT - COMFORT SERENITY

Pre-configuration of the product's network, server and application parameters.

Up to 15 years of  
autonomy

Designed and  
manufactured in  
France

## + CONNECTIVITY

Nano SIM cards

Installation of the card in your sensors and activation on delivery

Prepaid 5Mb/month plan for 5 years

Secure and reliable NB-IoT/LTE-M connectivity

Guaranteed network coverage in Europe thanks to our partner SFR

## + DEVICE MANAGEMENT PLATFORM

5-year subscription to the Orange Live Objects platform

Provisioning of the sensor on the Live Object device management platform

A host of functions enabling you to manage your sensor remotely:

- view network and application parameters
- configure your sensor parameters
- restart sensor or update application firmware
- configure alerts
- store data for 1 month
- HTTP Push of FIFO connector

## + SUPPORT FROM OUR EXPERTS

ALL FOR JUST

PULSE:  
239€

DRY CONTACTS:  
249€

COMFORT:  
259€
